Dear Sir:

APPEAL FOR A FAIR CLINICAL TRIAL OF MY TREATMENT OF  
CARCINOMA WITH INTRAMUSCULAR PARAFFIN INJECTIONS

I beg of you to get my PARAFFIN treatment of cancer a  
FAIR CLINICAL TRIAL.

It is a well known fact that intramuscular injections of  
paraffin cause LOCAL growths of fibrous tissue, called  
paraffinomata. What has been generally overlooked is their  
REMOTE stimulation of fibrous tissue formation, thus enhancing  
the encapsulation of true carcinomata, which is nature's de-  
fense against tumors of epithelial origin. As x-ray radiation  
reduces this natural reactivity, best results of my PARAFFIN  
treatment can be expected in patients who have got the least  
amount of x-ray treatments.

"PROGRESS IN SCIENCE IS GOVERNED BY THE LAWS OF REPULSION;  
EVERY STEP FORWARD IS MADE BY REFUTATION OF PREVALENT ERRORS  
AND FALSE THEORIES." Doctor Zhivago

Very humbly,
